Perimeter Detection System

AMAROK's Perimeter Detection System senses climbing or cutting of your perimeter fence.

Ideal for chainlink, welded mesh or razor wire coil perimeter fences of any height.

System Design

End-of-line termination box prevents cable tampering or system bypassing

Weather station to compensate for wind and moisture

Capabilities

22 levels of sensitivity settings per zone

Single zone can extend up to 1,000 ft.

Single wire can sense up to 10 ft. in height

Wires can be linked to work together for higher and/or longer fences

Automatic sensitivity adjustment for environmental conditions
