Physical

The **Electric Guard Dog Fence** is an imposing 10-foot-tall barrier that looms inside an existing perimeter fence. When criminals approach a well-maintained, full-perimeter electric fence with clear warning signs, they move on.

Shock

Our solar-powered electric fence delivers 7,000 volts of non-lethal, jolting resistance. The rare criminal who touches it once will not touch it again.

Alarm

Attempts to cut or scale our fence triggers immediate alarms, catching criminals red-handed with light, sound, and alerts to our monitoring system.
