

## STRENGTHEN PERIMETER SECURITY WITH VEGETATION CONTROL SERVICES FROM **AMAROK**

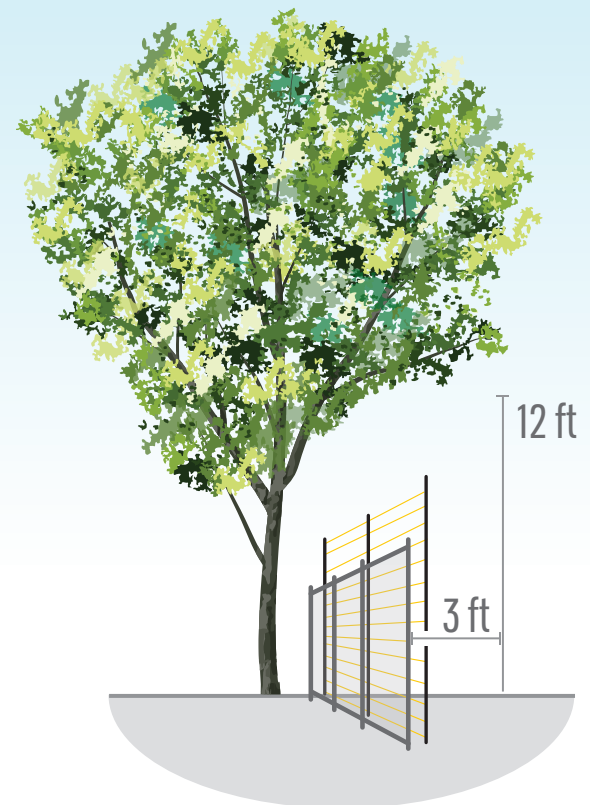

### **WHO can use this service?**

All **AMAROK** customers can benefit from our partnership with professional landscape maintenance companies to ensure your perimeter fence line is clear of vegetation and **The Electric Guard Dog™ Fence** is functioning properly.

### **WHAT is included?**

Vegetation control services include the initial clearing and removal of vegetation as well as the ongoing maintenance along the perimeter fence line.

- Existing overgrowth removal includes trees smaller than six inches (6 in.) in diameter as part of standard scope.
- Overhanging branches and limbs will be removed to a height of twelve feet (12 ft.) above the ground.
- Herbicide will be applied to control future growth along the fence line.

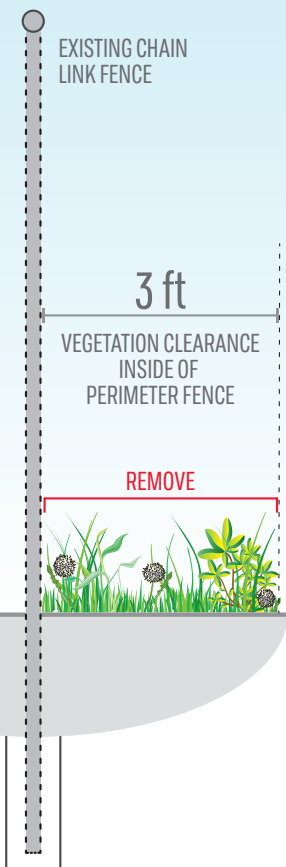

### **WHAT do we expect from you?**

- General landscaping and beautification is the customer's responsibility.
- Customer is responsible for moving vehicles, equipment and other assets from the fence line prior to the initial clearing.
- Customer is responsible for leaving space to access the fence line for ongoing maintenance.

## WHERE can this service be utilized?

All work associated with vegetation control services occurs up to three feet (3 ft.) inside your existing perimeter fence, including the location of **The Electric Guard Dog™ Fence**. Keep in mind that buildings, equipment, or other fixed obstructions may limit the area for vegetation control services.

## WHEN will vegetation control services be performed?

- Services are available for new installations and existing customers.
- Ongoing maintenance for new and existing customers will vary by climate and growing season.

## WHY is this service offered?

**AMAROK's** vegetation control services are designed to result in better security for your site. By taking advantage of these services, you will benefit from:

- Optimal performance of **The Electric Guard Dog™ Fence**
- Reduced installation challenges and delays
- Avoiding false alarms from voltage drops due to vegetation on the fence
- Reduced downtime and need for service calls

## HOW is this service priced and paid?

- Pricing varies based on the length of the fence, as well as the amount and type of vegetation present.
- Initial clearing can be paid for with a one-time fee or financed over the length of the contract—your choice.
- Ongoing maintenance will be financed over the length of the contract.
