

Sukut Equipment, Parts, and Rental Triples Security ROI and Ends Costly Repeat Theft

CUSTOMER:

Sukut Equipment, Parts, & Rental

OUR EXPERTISE:

- Electric Guard Dog™ Fence
- Integrated Video Surveillance

GOALS/OBJECTIVES:

- Protect large equipment on property
- Stop repeated theft
- Maintain a reputation for reliable inventory
- Prevent unverified security alarms

RESULTS:

- No property crime incidents since installation in 14th most dangerous city in U.S
- Over 3.5x ROI on security investment compared to the total value of assets on the property

CHALLENGE: Chain-Link and Security Cameras Do Little to Prevent Reoccurring Part and Equipment Theft

Despite having a perimeter chain link fence and monitored security cameras, Sukut still experienced repeated theft:

- Cameras did little to deter criminals from entering the property and committing a crime
- Incidents were increasing in frequency, becoming more brazen, and occurring randomly
- A high volume of unverified alarms meant the team was always “on call”

The Sukut team knew they had to take their security measures up a level.

SOLUTION: Perimeter Security with 3.5x ROI, No Installation Hassel, and No Liability

Colby, Operations and Inventory Manager for Sukut, was referred to AMAROK for electric perimeter fencing. Through the service model of AMAROK taking on all liability for the electric fence, Sukut could achieve the ultimate perimeter security without dealing personally with the San Bernadino permitting process. When compared to the total value of the assets Sukut would protect, the cost to secure the entire perimeter would have a 3.5x positive return for their business.

RESULTS: Zero Property Crime Incidents Since Installation

Since installation of The Electric Guard Dog™ Fence in 2020, Sukut has experienced zero attempted break-ins. Colby and the Sukut team have peace of mind that their operations and inventory are no longer at risk for property crime. Most importantly, Sukut can focus on productive, profit-driving tasks rather than catching criminals and repairing damages.

When asked if he had any advice for other inventory managers in his shoes Colby said this “Are your lost wages, lost time, and lost sleep worth it? React now, to what you could have prevented.”

Let us show you the positive return you can achieve through an effective property security partnership with AMAROK. Request your free threat assessment today.
