CARGO THEFT TRENDS

Cargo theft isn't slowing down. In fact, it's getting more sophisticated and more expensive. Organized theft groups are increasingly targeting high-value freight, exploiting supply chain vulnerabilities and using sophisticated fraud to redirect shipments.

60% **$725M in estimated cargo theft losses in 2025 — up 60% YoY.**

46% California remained the #1 state, with 1,218 incidents in 2025.

18% Confirmed cargo theft incidents increased 18% in 2025.
